FINAL CHALLENGE

PATTERNS MADE BY PEOPLE

A DETECTIVE GAME

You will need: a camera (you can use a mobile phone), a printer, cardboard, scissors, glue. (NB If you do not have a camera or printer you will need paper and pens/pencils).

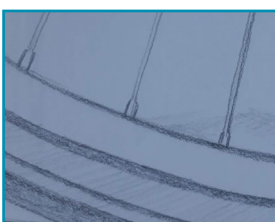

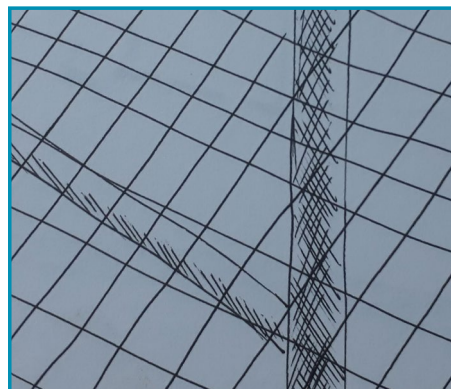

1. Take close up photos of patterns from 10 objects made by people that can be found outside (or draw them).
2. Choose 6 of the photos print them out and glue each to a piece of card. (If you are drawing, place each drawing of a pattern made by people on its own separate piece of paper or card).
3. Now get someone to find your outside patterns using the 6 cards you have made.

Here are some examples (remember you need to make 6)

ROTORUA
LAKES COUNCIL

If you are drawing your examples might look something like this

To make your pattern game more challenging you could crop your photos or drawings to show just a small part of the pattern.

We would love to see your work from these Patterns Made By People activities. Share with us by taking a photo of your completed work and email it to MuseumED@rotorualc.nz Please note that work submitted will be moderated before being published.
