CAN YOU FIGURE OUT WHO SITS WHERE?

Can you figure out who sits where?

Four university students are sitting in a computer suite.

Use the information below to work out which student is sitting where. (You may want to cross out the boxes/letters as you go)

1. The student sitting at Terminal #8 has been at university longer than Charlie
2. Denni is a first year
3. Charlie is sitting at Terminal #9
4. Aroha is one year behind the student sitting at Terminal #10

The letters that are left will then spell a word.

		Year				Terminal			
		First year	Second year	Third year	Fourth Year	#8	#9	#10	#11
Name	Aroha	C	M	A	A	R	U	L	I
	Bobbie	L	P	R	C	C	H	H	T
	Charlie	A	I	I	U	T	T	I	N
