Te Whare Taonga o Te Arawa
ART | CULTURE | HERITAGE

I think patterns from nature are amazing I hope you think so too.
Artists often create work to make people go "wow"

CHALLENGE

Your job is to use a mobile phone, take at least 10 photographs of patterns you have found in nature.
Try and do some close-up shots too.

Once you have taken your photos select the ones that show the most interesting patterns.
(Hint: You may have to enlarge or crop the photo to zoom in on the patterns)

Next we want you to put your photos together in a collage to show other people. We've given you examples below:

ROTORUA
LAKES COUNCIL

On the next page you will learn how to assemble your collage.

IF YOU DO NOT HAVE A PRINTER

1. On the phone use an app to collage or put together the photos like in the examples over the page. We recommend using **Layout by Instagram** because it's free and easy to use (you do not need an Instagram account to use it)
2. In the app select six out of your 10 images. Then select the frame that is the most like the examples on the previous page
3. From there you can play around with the images (have a go zooming in and even re arranging them until you are happy with how they are placed)
4. When you are finished save your work to the phone's photo album
5. Show this to people and ask them to try and guess what object from nature each pattern is from
