Kia ora and welcome

4 November 2022

The start of Term 4 begins the rush towards the end of the school year. We'd like to take some time to reflect on what has been a challenging yet rewarding year for our team. Everyone we feel deserves praise for seeing out another unusual year.

In review we saw the departure of our former lead Emma Liley and welcome into our small ED team Dominique Chandler. Dom brings a fresh new perspective to our team and we are excited to grow and improve with her input.

We farewell Jessica Cathro, the Digital Technology Educator for Te Aka Mauri Rotorua Library. Jessica is a familiar face to local schools as she has run digital tech programmes for our team. She has also taken a lead in the community promoting and running competitions involving Aquabots, Evelocity and RoboCup Jnr.

Jessica has chosen to go back to study and we wish her well in her future endeavours.

In this booklet you will see how we can help enrich local curriculum as the majority of our current and future programmes will have a strong link to Te Ao Māori. We strongly recommend you start booking for 2023 as soon as you have completed your planning.

Enrich local curriculum experiences for your ākonga by booking well in advance. Our programmes book up quickly and availability is rare on short notice.

We look forward to seeing you in the new year and wish you and your family a wonderful summer and festive season.

Social Science / Aotearoa NZ Histories Curriculum

1.5 - 2 hrs

Up to 30 students per session

Venue: Te Rūnanga Tea House

Using museum collection items, photographs and film, students will identify why we have volcanoes such as Tarawera in our region and how tourism developed at Te Wairoa in the early 1880s.

They will explore how the 1886 eruption affected the lives of people, changed the landscape and look at how to predict the likelihood of future eruptions.

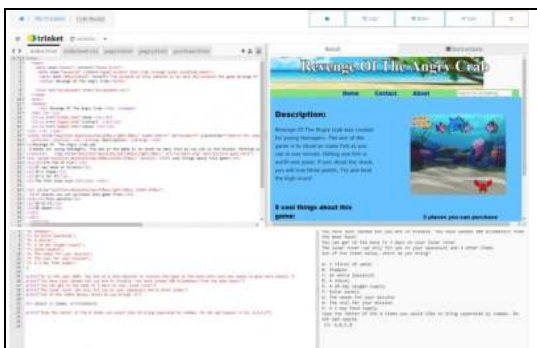

Please let us know your specific learning outcomes so we can adapt our programme to suit.

Our Place or Your School (Outreach)

Whether it's a brand new introduction for primary students, or a refresh for high school students, we can tailor our Let's Get Coding programme to the age and experience of your students.

During this programme, students will create at least one complete working game using an application appropriate to their age and experience

For senior high school students this is a great way to reintroduce them to skills prior to starting their programming standard.

For junior primary we can use Scratch Jr (you will need to bring along your own iPad/tablets with the app downloaded) and runs for 1 hour only. We can supply up to 10 devices but students work best on 1:1 devices

We provide additional projects to teachers to continue on after the visit.

TIMINGS

Bookings for school groups are essential.

Please book **4 — 6 weeks prior** to confirm your visit.

Session times range from **1 — 3 hours**
(enquire at time of booking)
